

Getting started with
WooCommerce Trustpay Gateway

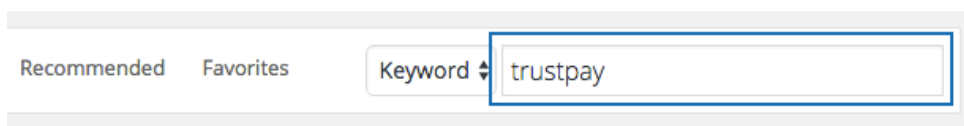

Installing plugin.....	3
Installing plugin using WordPress plugin installer.....	3
Installing plugin using FTP/sFTP	3
Configuring WooCommerce Trustpay Gateway	5

Installing plugin

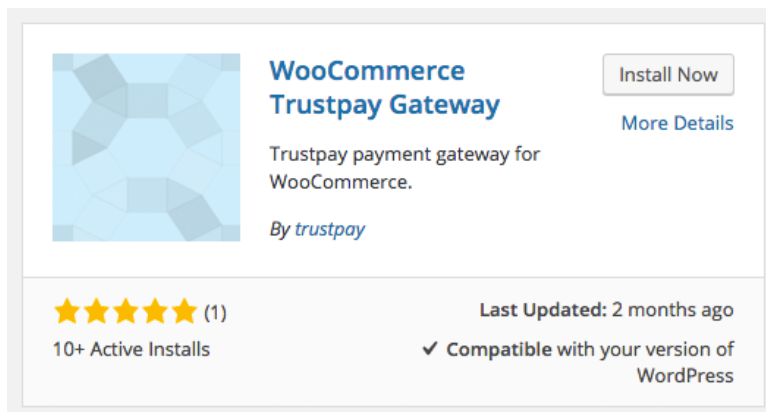

There are two ways to install WooCommerce Trustpay Gateway plugin for WordPress. Before you begin make sure you already have WooCommerce installed and activated.

Installing plugin using WordPress plugin installer

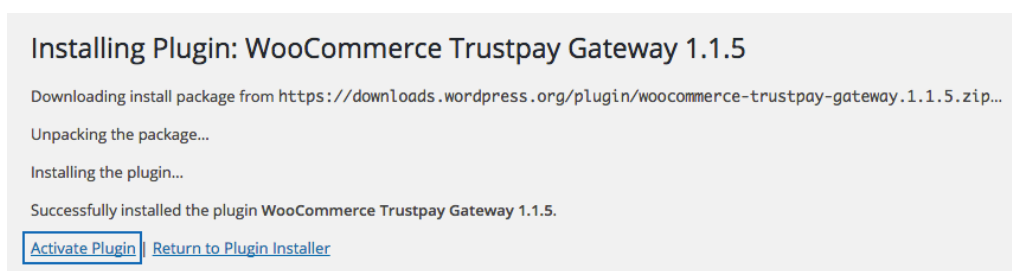

1. Login into your WordPress dashboard (<http://yourdomain.com/wp-admin/>).
2. From admin dashboard select *Plugins* -> *Add New*.
3. In search box (see the illustration below) enter "trustpay" (without quotes) and hit enter on your keyboard.

4. In the search results find WooCommerce Trustpay Gateway.

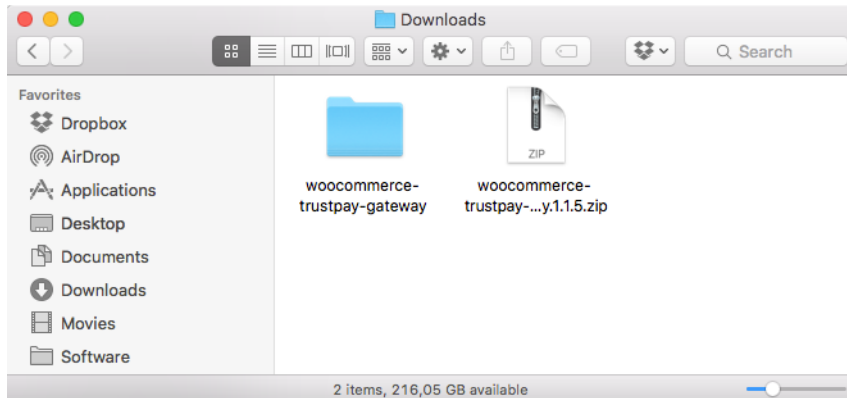

5. Click *Install Now* button, and then *Activate Plugin*.

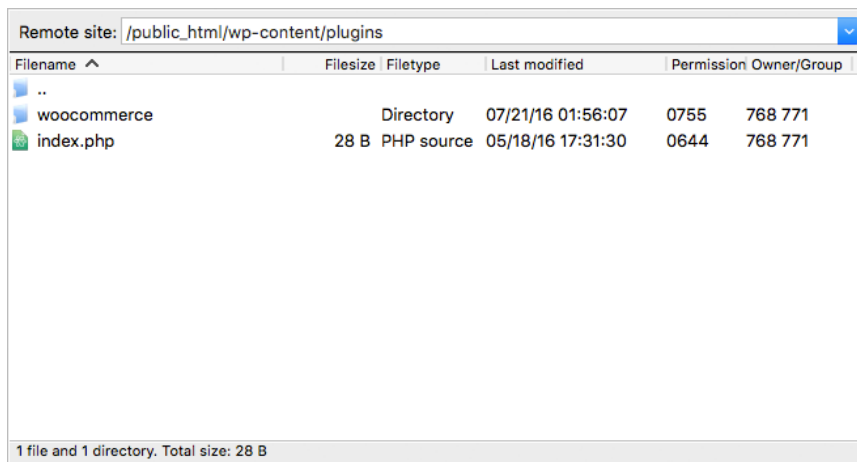

Installing plugin using FTP/sFTP

1. Download *WooCommerce Trustpay Gateway* plugin from WordPress.org (<https://wordpress.org/plugins/woocommerce-trustpay-gateway/>)

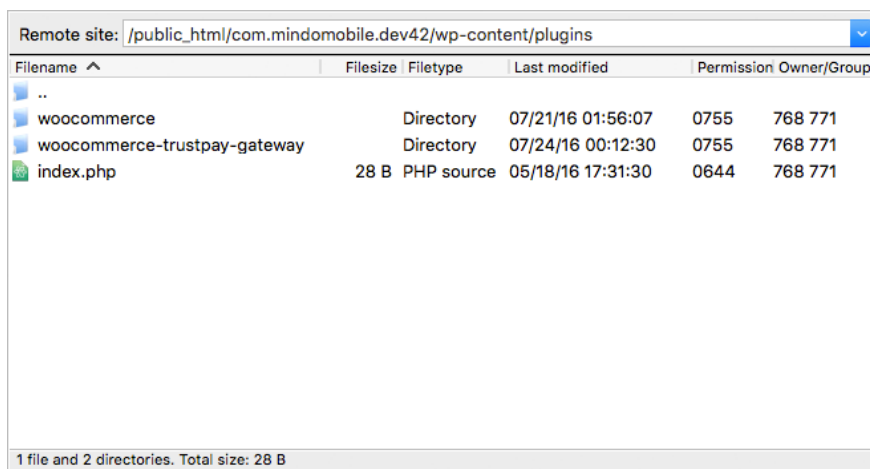

2. Extract zip file you have downloaded. You should now have folder woocommerce-trustpay-gateway.

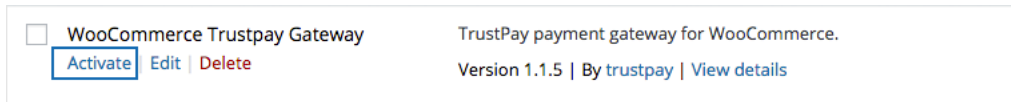

3. Open your favorite FTP/sFTP client. Ex: FileZilla
4. Connect to your FTP/sFTP server and then navigate to wp-content/plugins directory.

5. Copy extracted folder (from step 2) with all its contents. Once uploaded your wp-content/plugins directory listing should look like this:

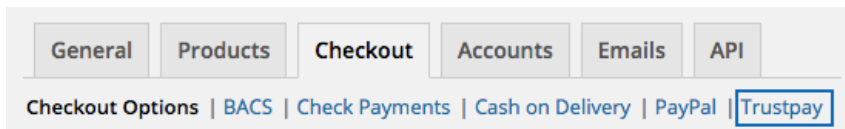

6. Login into your WordPress admin dashboard (<http://yourdomain.com/wp-admin/>)
7. From admin dashboard select Plugins -> Installed Plugins.
8. Find WooCommerce Trustpay Gateway in the list and click on Activate link.

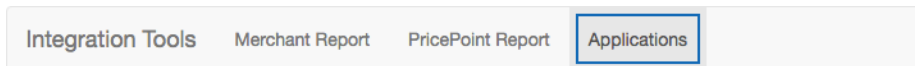

Configuring WooCommerce Trustpay Gateway

Before you continue, login into my.trustpay.biz account (<https://my.trustpay.biz>). If you haven't yet signed up yet, please, contact us at info@trustpay.biz.

1. Login into your WordPress dashboard (<http://yourdomain.com/wp-admin/>).
2. From dashboard menu open *WooCommerce* -> *Settings*.
3. Click on *Checkout* tab.
4. Right below the tabs you should see a secondary *Checkout Options* submenu. Click on *Trustpay* option.

5. On *my.trustpay.biz* dashboard (the page you opened before starting these steps) page click on *Applications* menu option.

6. Click *Create New* button to add application, if you already created application beforehand skip to *step 9*.
7. You will be prompted with *Applications for Merchant* form.

 A screenshot of the 'Applications for Merchant' form. The form has a title bar with the text 'Applications for Merchant' and a close button (X). The form contains several input fields: 'Vendor ID' (with the value 'ap.53b826262f'), 'Application Name', 'Notification URL', 'Shared Secret', and 'Status' (with a dropdown menu showing 'Please select:'). There is a 'Done' button at the bottom right of the form.

Application Name: Any text (ex: WordPress)

Notification URL: Copy *Notification URL* from *WooCommerce Trustpay Gateway* plugin settings page (example below)

Notification URL	<input type="text" value="http://yourdomain.com/wc-api/WC_Gateway_TrustPay/"/>
Shared Secret	<input type="text"/>

Please enter the Shared Secret. You can to get this information from your [TrustPay Account](#).

Shared Secret: Any text (ex: wordpress-test)

Status: ACTIVE

8. Click button *Done*.
9. Find your application in applications list, and click *View Details* button.
10. Copy *Vendor ID* (see below) to your *Application ID* field in *WooCommerce Trustpay Gateway* settings page.

Applications for Merchant

Vendor ID	<input type="text" value="ap.00000000-0000-0000-0000-000000000000"/>
Application Name	<input type="text" value="WordPress"/>
Notification URL	<input type="text" value="http://yourdomain.com/wc-api/WC_Gateway_TrustPay/"/>
Shared Secret	<input type="text" value="wordpress-test"/>
Status :	<input type="button" value="ACTIVE"/>

Done

11. Copy *Shared Secret* field value to your settings page (see above).
12. Click button *Done* on *my.trustpay.biz*.
13. Your *WooCommerce Trustpay Gateway* settings should look similar to example below:

Title	<input type="text" value="Trustpay"/>
Description	<input type="text" value="Pay with TrustPay Methods"/>
Application ID	<input type="text" value="ap.00000000-0000-0000-0000-000000000000"/> <small>Please enter your Trustpay Application ID. You can to get this information from your TrustPay Account.</small>
Notification URL	<input type="text" value="http://yourdomain.com/wc-api/WC_Gateway_TrustPay/"/>
Shared Secret	<input type="text" value="wordpress-test"/> <small>Please enter the Shared Secret. You can to get this information from your TrustPay Account.</small>

14. Click button *Save* changes to update gateway settings.
